

Construction Update

Activity update for August 5, 2016

Dear Friend,

Work is proceeding on schedule at Robinson Landing and we're making excellent progress. Following is a summary work plan for the next few weeks.

- We will complete demolition of the 226 Strand building this week.
- The Alexandria Fire Department will conduct a series of training exercises onsite over the next few weeks prior to demolition of the main warehouse buildings. The training may involve damage to some of the existing buildings that will be demolished. *Residents should not be alarmed by a significant fire and/or EMS presence at the property.*
- Pre-demolition surveys are underway for properties adjacent to the main warehouse buildings along Duke, Wolfe, and Union streets. We expect to conclude these surveys next week. Property owners who still need to schedule their surveys should contact construction@RobinsonLanding.com

Please visit the [Robinson Landing](http://RobinsonLanding.com) website for additional information about the project

and to sign up for future construction updates electronically.
